

# **Elderly Support – Powerful Admin Dashboard to Manage Everything in One Place**

The Elderly Support Admin Panel is a centralized healthcare-focused management system designed to efficiently manage elderly users, caregivers, customer records, analytics, website content, subscriptions and administrative operations. The platform provides real-time monitoring, structured patient management, and streamlined operational control through an intuitive dashboard interface. The Elderly Support admin panel gives you complete control over your platform — from your public website content to patient and customer data — all from a single, easy-to-use dashboard.

Whether you need to update a page on your website, review a patient record, or check how your platform is performing, everything is just a few clicks away.

## Admin Dashboard

The Admin Dashboard provides a centralized overview of the entire Elderly Support platform.

## Website Content Management

Keep your public website always up to date without touching any code.

Every page is fully editable from the dashboard.

- **SEO Settings** — Control how your website appears on Google. Update page titles, meta descriptions, and keywords to improve your search visibility and reach more families looking for elderly care.
- **Homepage** — Edit your website's homepage content, hero sections, and call-to-action areas whenever you need — no developer required.
- **About Page** — Share your story, mission, and values with your audience by updating the About page directly from the dashboard.
- **Packages** — Add, edit, or remove the care packages displayed on your website so visitors always see accurate, up-to-date service offerings.
- **Team Profiles** — Showcase your caregivers and staff by managing their photos, names, roles, and bios. Build trust with families before they even reach out.

- **Privacy Policy** — Keep your privacy policy current with a simple editor. Publish updates instantly without waiting on a developer.
- **Terms & Conditions** — Manage your terms of service page and ensure your legal content is always accurate and accessible

## **Patient & Customer Management**

Everything you need to manage the people you serve — organized, accessible, and secure.

- **Customer Accounts** — View all registered customers, their details, and account status in one place. Quickly find any customer and review their information at a glance.
- **Patient Records** — Add and manage patient profiles, track their personal and medical information, and keep records organized and easy to access whenever you need them.
- **Packages Purchased** — See which customers have subscribed to which care packages, track purchase history, and stay on top of all active plans across your customer base.
- **Analytics** — Understand how your platform is being used. Track visitor traffic, monitor user activity, and measure performance — so you can

make informed decisions about your service and grow with confidence.

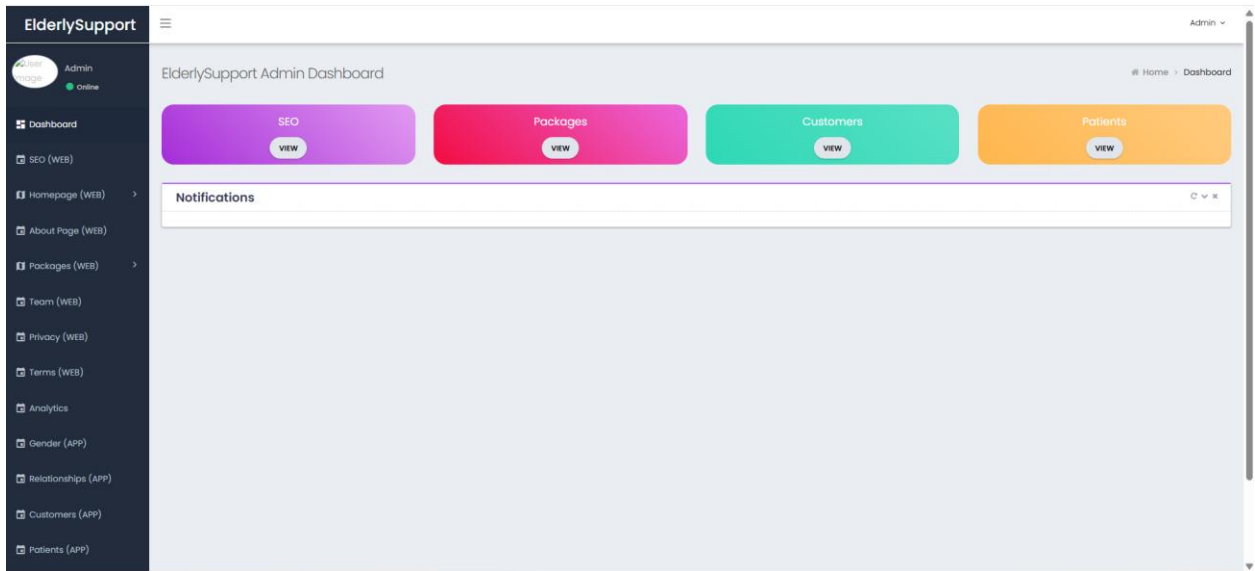

- **Secure Admin Access** — Your dashboard is protected with secure login and role-based permissions, ensuring only the right people have access to sensitive data. Manage your team's access with confidence, knowing your platform and your customers are always protected.

### **Key Functionalities**

- Quick access to SEO, Packages, Customers, and Patients modules
- Centralized navigation for admin operations
- Real-time notifications and updates
- User activity monitoring

### **Business Uses & Benefits**

- Improves administrative efficiency
- Enables quick access to important modules
- Helps monitor overall platform performance

Centralized Elderly Support Admin Dashboard with quick-access modules

## Reports & Analytics

The Analytics module provides visual insights into platform users and patient demographics.

### Key Functionalities

- User distribution charts
- Patient demographic analytics
- Gender-based statistics
- Interactive graphical reports

### Business Uses & Benefits

- Supports data-driven decision-making

- Tracks platform growth and engagement
- Improves reporting and monitoring

Analytics dashboard displaying user and patient demographic insights.

## Patient Management

The Patient Management module enables administrators to manage elderly patient profiles and EMR records.

### Key Functionalities

- Patient profile management
- Medical and demographic information tracking
- EMR add/view functionality
- Search and filtering options

## Business Uses & Benefits

- Centralizes patient information
- Improves healthcare record accessibility
- Enhances elderly care management

#	Name	DOB	Gender	Height	Weight	Customer	Relation	Action
1	Test01	1999-01-01	Male	155	55	Chandni	Brother	<a href="#">VIEW DETAILS</a> <a href="#">ADD/VIEW EMR</a>
2	Patient 1	2011-01-01	Female	120	18	Chandni001	Daughter	<a href="#">VIEW DETAILS</a> <a href="#">ADD/VIEW EMR</a>
3	Abc	2005-01-01	Female	130	56	Chandni	Sister	<a href="#">VIEW DETAILS</a> <a href="#">ADD/VIEW EMR</a>
4	Test01	2005-01-01	Others	130	33	Tester001	Cousin	<a href="#">VIEW DETAILS</a> <a href="#">ADD/VIEW EMR</a>
5	Claudia	1948-02-27	Female	168	85	Mila Valle	Mother	<a href="#">VIEW DETAILS</a> <a href="#">ADD/VIEW EMR</a>
6	Jim	1990-11-05	Transgender	160	75	chandni vijayan	Cousin	<a href="#">VIEW DETAILS</a> <a href="#">ADD/VIEW EMR</a>

Patient management interface with EMR access and detailed patient records.

## Relationship Management

The Relationship Management module allows administrators to configure family and caregiver relationship types.

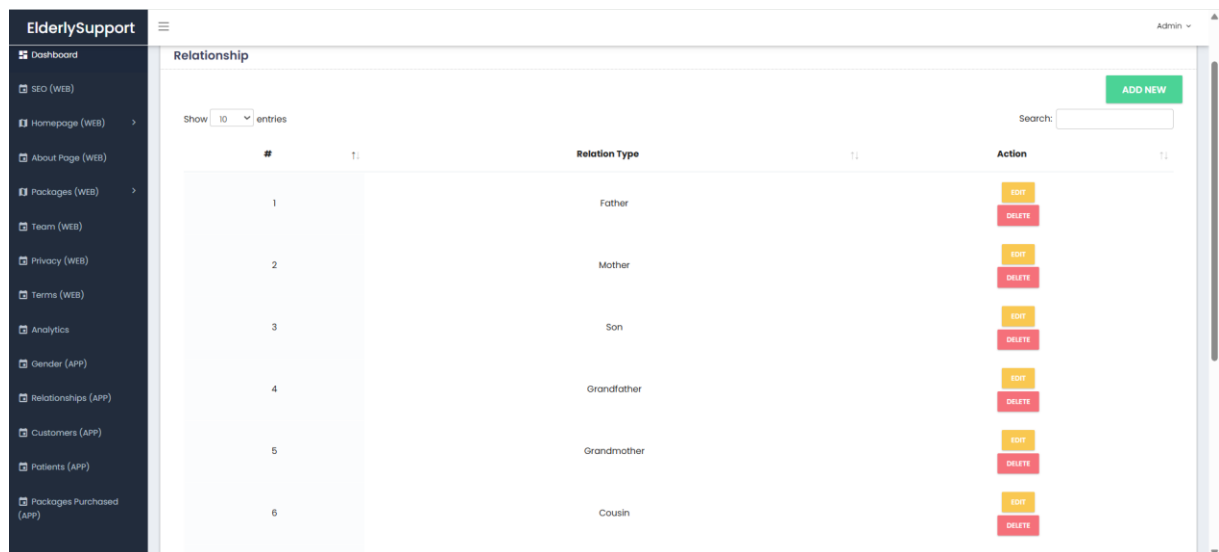

### Key Functionalities

- Add/Edit/Delete relationship types
- Relationship categorization

- Flexible relationship configuration

## Business Uses & Benefits

- Improves patient-family mapping
- Supports better emergency and caregiver coordination
- Maintains organized relationship data

The screenshot displays the 'Relationship' management module in the ElderlySupport system. It features a dark sidebar with navigation options and a main content area with a table of relationship types. The table has columns for an ID, Relation Type, and Action. Each row includes 'EDIT' and 'DELETE' buttons. A search bar and an 'ADD NEW' button are located at the top right of the table area.

#	Relation Type	Action
1	Father	EDIT DELETE
2	Mother	EDIT DELETE
3	Son	EDIT DELETE
4	Grandfather	EDIT DELETE
5	Grandmother	EDIT DELETE
6	Cousin	EDIT DELETE

Relationship management module for configuring family and caregiver relationship types.

## Customer Management

The Customer Management module maintains customer profiles and linked patient records.

### Key Functionalities

- Customer profile management

- Address and contact tracking
- Patient association mapping
- Customer search functionality

## Business Uses & Benefits

- Improves customer relationship management
- Enhances communication and support
- Maintains centralized customer records

The screenshot shows the 'Customers' management interface. It includes a search bar and a table with the following data:

#	Name	Email	Address	Phone 1	Phone 2	Patients
1	Chandni	chandnicv17@gmail.com	Thiruvananthapuram, Kerala, India	7558050396	7558050397	<a href="#">VIEW PATIENTS</a>
